

Serving the desalination, measuring & leveling, pipes & valves, storage, and water & wastewater treatment sectors | **Since 1977**

waterHQ | Industry Platform

Brief

waterHQ has evolved since 1977 from a B2B magazine (previously known as Arab Water World) to a full-fledged water industry platform composed of multi-media channels (magazine, website, services, events, reports, newsletters, social & email) available to a large, specialized & worldwide audience.

The platform actively participates at leading water industry events (exhibitions, tradeshows & conferences), worldwide, and distributes / circulates its media (physically &/or digitally) to event's visitors, speakers, and exhibitors - which provides additional high-level exposure to promotional partners.
